☣ OCHILTREE, THIS AFFECTS YOU

32,000 hens. 800 m from Ochiltree.

A commercial egg factory unit is planned in the fields off Station Road.

Biohazard in the air

Fans vent Poultry Dust, ammonia, bacteria and fungi day and night. Southerly winds blow it over Ochiltree, the primary school and the Hub.

Bird flu on our doorstep

3 km

An outbreak would put the whole village inside a 3 km Protection Zone. It has just happened at a laying farm near Biggar.

Lorries on Station Road

HGV

Feed, egg and manure lorries on a single-track residential street with no passing places.

Smell and the burn

36 m

About 1,800 tonnes of manure a year, and a soakaway just 36 m from the Burnock Water. On a warm summer day Ochiltree will be absolutely reekin!

HAVE YOUR SAY. OBJECT BY

Monday 23 November

Planning reference 26/0511/PP

Every household can object. It only takes a few minutes.
